---

## SUMMARY

Cybersecurity enthusiast and third-year engineering student with strong foundational knowledge in networking, operating systems, and system security. Comfortable working in Linux environments and analyzing network traffic. Passionate about offensive security and adversarial simulation, with hands-on exposure to reconnaissance and traffic inspection in controlled lab environments. Known for analytical thinking, problem-solving ability, and continuous learning mindset.

---

## WORK EXPERIENCE

**Cybersecurity Intern – Cybersecurity with Gen AI** **Dec 2025 – Jan 2026**  
**AICTE – VOIS (Vodafone Idea Foundation) | Edunet Foundation**

- Completed structured internship focused on system security, networking fundamentals, and modern cybersecurity practices.
  - Strengthened understanding of operating system security, browser security, and mobile device protection.
  - Gained foundational knowledge in ethical hacking principles, cryptography, and website threat analysis.
  - Practiced network traffic monitoring and packet inspection in controlled lab environments.
  - Studied phishing techniques, attack vectors, and mitigation strategies.
  - Developed technical documentation and reporting skills through guided assignments.
- 

## EDUCATION

**Bachelor of Engineering (B.E.), CSE(IoT,Cybersecurity inc. BCT)**

University of Mumbai.

Expected Graduation: May 2027.

**Higher Secondary Education**

**JULY 2021-MAY 2023**

Jai Hind College.

---

## ADDITIONAL INFORMATION

- **Technical Skills:** Networking Fundamentals, TCP/IP, OSI Model, Linux Command Line, Packet Analysis Basic Reconnaissance, Vulnerability Awareness
- **Tools Exposure:** Kali Linux, Wireshark, Nmap
- **Core Strengths:** Analytical Thinking, Problem Solving, Ethical Hacking Principles, Technical Documentation
- **Languages:** English, Hindi.
