

FAIZAN SHAIKH

Mumbai, Maharashtra | 7039920190 | faizanshaikh250805@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full Stack Developer with hands-on experience building AI-integrated web applications using React, Next.js, and modern backend technologies. Strong foundation in cybersecurity, network security, and threat analysis. Published researcher with a track record of designing, building, and shipping products from concept to deployment.

EDUCATION

B.E. in Computer Science and Engineering (IoT, Cybersecurity incl. Blockchain Technology)

Expected May 2027

Mumbai University — Mumbai, India | CGPA: 7.31 / 10

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, Vue.js, Angular, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Django, Flask, FastAPI

Databases: MySQL, PostgreSQL, MongoDB, Firebase

Cloud & DevOps: Vercel, Netlify, Docker

Tools: Git, GitHub, VS Code, Figma, Postman

APIs & Protocols: REST APIs, GraphQL, WebSockets, JWT/OAuth

Security (Additional): Linux, Wireshark, Burp Suite, Kali Linux, Network Security Fundamentals, Threat Detection

PROJECTS

FocusFlow OS

React, Next.js, TypeScript, AI APIs, Backend APIs, Database

- Designed and built an AI-powered productivity and study platform enabling users to plan tasks, manage study/work sessions, and interact with an intelligent assistant
- Architected the full application stack end-to-end, including UI/UX, AI integration, and core productivity features

Student OS

React, Next.js, TypeScript, AI/LLM APIs, Backend APIs, Database

- Built an AI-powered centralized academic workspace for learning, coursework organization, and AI-assisted study tools
- Designed the system architecture, UI/UX, and AI features; onboarded 20+ verified users, demonstrating real-world product adoption

WebDrop

React, WebRTC, WebSockets, JavaScript/TypeScript

- Developed a peer-to-peer file-sharing application enabling direct device-to-device transfers without cloud storage dependency
- Built the frontend, peer-to-peer communication architecture, and end-to-end file-transfer workflow

WORK EXPERIENCE

Frontend Development Intern (Task-Based)

Nov 2025 – Dec 2025

CodexIntern

- Built responsive UI components and implemented assigned modules using React, REST APIs, and modern front-end tooling
- Delivered task-based project work under real-world constraints, strengthening problem-solving speed and code quality
- Recognized for analytical ability and productivity throughout the internship

Cybersecurity with GenAI Virtual Intern

Dec 2025 – Jan 2026

Vodafone Idea Foundation × Edunet Foundation (AICTE Program)

- Completed hands-on training in cybersecurity fundamentals integrated with Generative AI concepts
- Studied threat detection workflows, system security basics, and vulnerability awareness aligned with industry practices

AI for Sustainability Virtual Intern

Dec 2025 – Jan 2026

IBM SkillsBuild × AICTE

- Gained practical exposure to Agentic AI systems and Retrieval-Augmented Generation (RAG) for sustainability-focused use cases

- Applied AI concepts to real-world problem scenarios aligned with UN Sustainable Development Goals

Joint Web & Tech Head

2025 – 2026

ISTE Students' Chapter, M. H. Saboo Siddik College of Engineering

- Managed technical operations and digital infrastructure for student workshops, events, and chapter activities
- Coordinated cross-functional teams to execute web initiatives, technical troubleshooting, and event technology setups

PUBLICATIONS

“When Smart Systems Optimize the Wrong Thing: Evaluating Security and Sustainability in a Tourist Incident Response System”

2026

Journal of Collective Sciences and Sustainability

- Co-authored research developed from a Smart India Hackathon (SIH) 2025 prototype; introduced a 3-Layer System Evaluation Framework (Technical, Socio-Technical, Temporal) to balance IoT security with sustainability
- Simulated 500 trajectories, achieving 83.5% energy savings through context-aware adaptive geofencing and a 27.7% reduction in false alarms via a human-in-the-loop SOS cancellation mechanism

CERTIFICATIONS

- Introduction to Full-Stack Web Development — Vodafone Idea Foundation (Dec 2025)
- Introduction to Threat Hunting — Security Blue Team (2026)
- Cybersecurity Analyst Virtual Experience Program — Deloitte, Forage (2025)
- Cybersecurity Virtual Experience Programs — Mastercard & Commonwealth Bank, Forage (2025)
